

Yep, it
keeps going.

STR

HMC-US.COM

BIRD'S EYE VIEW

With a 29' MAST you'll be able to accomplish the tallest jobs.

WATCH IT MOVE

Our MAST MOVES 24" in and out 10" side to side, for unparalleled flexibility.

EASY AS X-Y-Z

The STR's GPS AUTOMATION controls provide you with precision pile placement.

JOB CUSTOMIZATION

Get the job done with 3 AVAILABLE ATTACHMENTS: Vibratory Driver/Extractor, Impact Hammer, and the Auger.

REVVED UP

With 83.5 HORSE POWER, TIER 4i ENGINE, the STR has superb power.

BALANCING ACT

The HYDRAULICALLY ADJUSTED COUNTERWEIGHT allows you to achieve the right balance for the day's work.

360° ROTATION

Be the most versatile player on the worksite with the new Self-Contained Track Rig (STR). While other machines in its class can perform only one function without the ability to switch tools, the STR tops them all by easily converting from the Impact driver to the Vibro driver to the drill tool when installing small piles for

solar or other applications. One machine with the flexibility of three tools right at your fingertips makes you the MVP of any worksite.

Discover how the STR can transform your business. Call us today to find out how you can pre-order an STR.
